Joe Lofshult

I believe that everyone, at their core, wants to grow and become more than they currently are. I also believe that everyone is capable of far more than they think they are. As your coach, my job is to partner with you to help you create a vision of where you want to go, create a map to get there, and be a traveling companion along the journey.

I bring to coaching over 20 years as a transformational leader in IT organizations along with training in Executive and Professional Coaching from the University of Texas-Dallas. My education includes a Bachelor's degree in Nuclear Engineering from Iowa State University, an MBA from the University of Nebraska-Omaha and Master's degrees in Management Information Systems and Computer Science from the University of Nebraska-Omaha.
